AN APOLOGY OF DELAY: Due to a continued influx of Government printing, we have been unable to get our catalog printed this year. In view of the fact that it is getting late in the season, we have found it necessary to cancel our 1944 catalog. It is necessary to substitute this shorter list of varieties, in order to speed up the filling of orders this late in the season. While our stocks of these varieties are large enough to meet the needs of a normal season, we expect this concentration of varieties to clean some of them up in a short time. Like every other business, we are attempting to meet the difficulties of war time conditions, to the best of our ability. Urgent Army and Navy printing is certainly more important than the printing of our catalog.

Due to the scarcity of labor, there is a tremendous shortage of *Gladiolus* bulbs thruout the country. This shortage of bulbs has caused a sharp increase in the price of cut flowers. Another sharp increase is due for the coming summer. This condition has caused about a 25% increase in the price of bulbs. This bulb shortage is going to be more acute next year. We are holding a large number of varieties off the market this year, in order to propagate stock in those varieties. We hope to meet next years shortage with a good supply of bulbs. All small stock and bulblets are being held for our own planting. It will be necessary to concentrate on varieties that have commercial qualities.

It has been our policy to be very liberal with extras, in the past. With the present bulb shortage, it will be necessary to discontinue this practice, for the duration. Sorry.

IMPORTANT: In making out your order, it will aid greatly if you mention some substitutes, in case some varieties are sold out. Otherwise, a refund will be made for any sold out variety. Medium bulbs will be substituted for large after large are gone. One variety will not be substituted for another without your consent.

Quantities listed under each variety is in accordance with the supply available for that variety. Varieties listed per each are very likely to be sold out first.
